

23 TORIES SEEK SOFT FUTURE JOBS

Edmonton Relief Strike Now Set For Next Monday

Jobless Apprise Council Of Plans

Hurting at city council that a relief strike would be called for Monday, April 29, if no action was taken this week, spokesmen for the Unemployed Married Men's Association said yesterday they desired a decision on jobless complaints. Council decided to meet again Wednesday evening for consideration of this question.

Recommended by the finance committee that an unrestricted voucher for food allowances be adopted, the men said they would investigate the feasibility of paying cash for food purchases will also be dealt with at Wednesday's meeting.

MEET ON SQUARE

J. McPherson, president of the U.M.M.A., said he had come from a meeting of 300 unemployed married men and women on Thursday night to advise the city. Ten thousand city relief cases were represented at this gathering.

The men said they would stage a sit-in at city hall, demanding that men on relief be given priority over able-bodied men and women on the direct relief list. City Council was being held responsible.

Referring to a statement by H. F. McKeen, manager of the special relief department, the men said some relief cases would not spend their money wisely if cash were added to the existing food voucher system. Mr. McPherson declared such a stand "is an insult."

Mr. McPherson said he would exclude a 15 per cent increase in food allowances and a clothing allowance from the new plan for each child per month.

Mary Clarke, "Does the relief strike not apply to the relief office?"

"Oh, yes," she said.

Referring to complaints about the soup kitchen, the mayor said the M.R.C. was responsible under the jurisdiction of the city.

Mr. McPherson explained that the

KING BORIS' FIRM STAND KILLS REVOLT

Determined, Vigorous Acts Save Bulgaria From Reaction

SOFIA, Bulgaria, April 23.—King Boris became the world's newest dictator, and one of its youngest, Monday after forestalling an 11-hour attempted coup and rebellion by military leaders.

Details of the 41-year-old King's determined and vigorous actions were learned after he became master of his country, which he breached easier, believing he had saved it from revolution.

Exiled from Bulgaria by the military league, which had the country in its grip until the cabinet resigned last Friday, King Boris, who had always been determined to have a civil and constitutional government, returned.

Boris got wind of it and, showing extraordinary courage and initiative, summoned a meeting of the army by summoning a score of ring leaders of the military league to the Palace, where he met them in secret. Military leaders were defiant and made it clear they could not tolerate any civil rebellion.

Boris quickly decided to make the inevitable officers prisoners. He

QUINT FEARS NOW RELIEVED

CALLANDER, Ont., April 23.—Dr. Allan Brown, internationally known orthopaedic surgeon, found the Dionne quintuplets at three o'clock this morning and found them "satisfactorily recovering" from head colds. He said that physical examination was excellent.

Dr. Brown, physician-in-chief to the Hospital for Sick Children, Toronto, said that the physicals of the Dionne, father of the children, the mother and the husband of the Dionne believed their condition was more serious than he had been told.

Mexican Train Wreck Injures 35 Persons

MEXICO, April 23.—Thirty-five persons were injured last night in a train wreck near the town of San Bartolo, 14 miles north of the city.

Several of the injured were reported to be in a serious condition

Richest Girl In World To Build Mimic Taj Mahal

CALCUTTA, April 23.—Mrs. Doris Duke,阔太太, the American heiress who plans to rebuild a wing of her Florida mansion after the style of the Taj Mahal, has sent \$100,000 to the ancient Mausoleum to Mogul Emperor's tomb to impress Mrs. Cromwell that she means to follow through with the plans for the remodeling.

Construction of windows and doors for the marble mausoleum has already begun and will be completed

next year, according to the

Emperor's tomb.

The young heiress, whose

husband, John H. H. Cromwell,

came to this "City of Palaces" to build several months of leisurely honeymoon tour of northern India.

northern India.

As a result of the disposal of

the last of the legislation and

amendments, the legislature

broke up yesterday, April 23.

Monday, come insiders say,

the legislature will reconvene

on Wednesday. However, at this

stage of the proceedings nothing

has been done except that

what was expected on Monday

and what was to happen

on Tuesday.

It wasn't surprising to Stepmother Edward E. MacPhail, who was expecting his old friend, Edward E. MacPhail, to

arrive in time to speak at the

opening of the session.

"Come in," Stepmother Edward E. MacPhail, who was to speak at the opening of the session.

"The door is unlocked,"

she said, and Stepmother Edward E. MacPhail went to the door to investigate.

He was there all right, but he had apparently

been admitted by the doorkeeper.

WOMAN HELD SOCIETY THIEF

CANNES, France, April 23.—Police here announced they had found a jewelry worth 1,000,000 francs, or \$60,000,000, a strong safe in the possession of a London society woman, Mrs. John Currey, who was in jail, where she had been placed on a charge of stealing a \$2000 vanity case from Mrs. Hall, old Lawrence of New York.

Silver Prices Are Soaring Upward

WASHINGTON, April 23.—Senator (D., Colo.) commanding today the climb in the London silver price to 10.70 cents an ounce.

"I don't see any reason from dollar silver. The demand is in excess of the floating supply."

EASTER MAILS FLOOD OTTAWA CANCER FUND

Contributions Send Purse Over \$250,000 Mark—

ENDS May 6

By THOS. WAYLING, EDMONTON, ALBERTA

OTTAWA, April 23.—Easter compassion flooded the mails this morning, sending the amount to the King's Cancer Fund in Canada.

The honorary secretary of the fund, Dr. V. Woodford, deputy minister of pensions and deputy minister of health, said today that double average mail for the fund had arrived.

The Easter contributions sent

over the quarter mark were

from the United States.

Mr. Woodford said the

amount will be available

May 6, when the

Counties of Bessborough to His

Majesty on Jubilee Day, May 6.

With the arrival of the

mail, the purse will be trans-

ferred to the Royal Canadian

Bank, which will then

deposit the amount in the

King's Cancer Fund.

GOVERNMENT AGENCY BUYER OF MAY WHEAT

POOL TO ACQUIRE BIG STOCKS, WILL GOVERN MARKET

APPOINTMENT STREET HEAD NOW HOISTED

City Engineer Tells Council of Road Drainage Difficulties

Proposed by Mayor Clarke that city council consider the appointment of a street superintendent or surveyor whose duty would be to direct street cleaning and repair work, was referred "Monday night" to the civic finance committee for a recommendation.

UNUSUAL REQUEST. Contracting road conditions, the Mayor said they were impossible. He could not understand why the appointment of such an official could not be made available to the city. He also urged the city engineer of a certain amount of responsibility, since the present head had "misled" him during his tenure upon him.

Concerning the proposed City Engineer A. W. Haddow said co-ordination of work made for better drainage would mean an increase in administrative costs. "Not telling you what I should do," said Haddow merely an observation, said Mr. Haddow.

HIS OBJECTIVE. Objecting to the setting up of a new branch in the civic service, Ald. H. D. Amlay said it would certainly mean an increase in costs. Mayor Clarke criticized the attitude of those who opposed the proposal. "Surely the two commissioners should be able to give evidence that they are right."

Explaining that conditions this spring were worse than any previous year, Alderman Haddow said, "I am going to the in-weather weather of the past few years and the city has had to be thawed many times."

His department was being delayed by the fact that his department had expended the 1935 appropriation for this work.

ASKS CO-OPERATION. Continuing, the engineer said that men and equipment were working day and night in the city and that with co-operation he declared soil would be made available to the city.

In this district was poor for road building, he said, and it would co-operate with the city by making the best of road conditions for the short time available.

The mayor then suggested that the five city workers be worked for two days each week so that road improvement might be speeded up.

It was pointed out by Mr. Haddow that the territory was being covered as fast as possible. It was important to have a final cleanup of roads owing to moisture conditions.

John I. McFarland Announces Listing of October Future Deferred To End of May.

WINNIPEG, April 23.—With listing of the October option still imminent, the Winnipeg grain exchange took up with the realization the Dominion government wheat agency requires delivery of wheat May when instead of other future contracts.

Representatives from eastern Canada, John I. McFarland, general manager of the central selling agency, and G. C. Matheson, manager in charge of government stabilization efforts, announced delivery of the May wheat would be required.

Desiring to take delivery of the grain, grain importers, who would place the agency in a still stronger controlling position over the market, would be given ownership of the grain will pass to the agency, and it will then be in a position to sell it at a profit.

It was in association with this contention that Mr. Matheson suggested the work of the Bill of Credit would be suspended as additions to Mr. Duggan's motion.

NFT DISCLOSED.

The amount of wheat to pass into sole ownership of the provincial highway authority was not disclosed by Mr. Matheson, but he did say the agency holds paper against the Canadian government for wheat to be taken over by the Dominion government.

Mr. Matheson, however, as far as McFarland would not have grain posted as Vancouver or Fort William.

PASS IN CONTROL.

By calling for the May option, Mr. Matheson, who has been offered \$600,000 worth of wheat at lakehead terminals, will pass into control of the agency, it was pointed out.

If this is done, the agency could gain the movement of some of the 95,000 bushels of grain held in elevators of the west. There is 100,000 bushels in storage at Vancouver and to date 10,000 at Fort William.

Listing of the October future for wheat will be deferred until after the end of May. Mr. McFarland announced as much.

Donald MacLeod, U.P.A., Stony Plain, declared there should be no surprise in the agency's taking over the market readily, the agency could move its movement of some of the 95,000 bushels of grain held in elevators of the west. There is 100,000 bushels in storage at Vancouver and to date 10,000 at Fort William.

Some eight years ago wheat was held by both authority and agency, resulting in a great deal of confusion.

In view of this, the Dominion last year constructed 60 miles of the Canadian National railway line between Stony Plain and the south end of the valley, which is the highest point of the road from the Dominion.

Mr. Matheson, who has been a member of public works, denied the all-wheeled road program of the government.

The plan of construction reflected in the bill of credit was to be carried out by Reichsfuehrer.

He reiterated a statement made earlier in the season that he had planned to bring about a reorganization of the three national railroads.

The legislature, on a vote of 31 to 16, defeated a resolution submitted by Col. F. G. Jamieson, Conservative, to amend the bill so that the bill would be passed.

The train took off immediately after and went to the Military Museum where it was placed at the controls of young soldier and young rider who had ridden the horses of the Royal Dragoon Guards.

Adolf Hitler, who had been brought along, was shown the animals.

The legislature approved a resolution moved by John J. Bowlen, Liberal, Lethbridge, and H. C. Brinkley, U.P.A., Ponoka, opposed the motion.

HIGHWAY NEED IMPRESSED IN LEGISLATURE

Member Resolutions For Various Roads Are Debated

Construction and completion this year of the highway between Jasper and Blue River and the Big Bend section of the trans-Canada highway were urged in a resolution unanimously adopted by the legislature yesterday by the provincial Conservative leader, with an addition to the bill.

Representatives from the interior, however, urged that the bill respecting government control of the May wheat should be inserted in all government contracts.

The bill was a private measure. The main principle of the bill was that the government should vary any contract for public works, whether made in the past or future. There was to be a clause to state that a fair wage clause be inserted in all government contracts.

On both these points there was considerable opposition.

Opposition to Fred White's Measure Proves Too Strong

In the face of strenuous opposition, the bill was so far as to be amended to the effect that the bill was to be inserted in the contracts of the province.

Legislation against the government for more and better highways, "share the road," was charged it was to be inserted in the contracts of the province.

It was in association with this contention that Mr. Matheson suggested the work of the Bill of Credit.

Both the bill and the amendment were voted down.

Mr. Matheson, however, as far as McFarland would not have grain posted as Vancouver or Fort William.

Some eight years ago wheat was held by both authority and agency, resulting in a great deal of confusion.

In view of this, the Dominion last year constructed 60 miles of the Canadian National railway line between Stony Plain and the south end of the valley, which is the highest point of the road from the Dominion.

BRAIN TRUST IS ADVISORY BOARD FOR GOVERNMENT

LOCAL BANKS PLAN APPROVED BY MEMBERS

Col. Jamieson Has Success In Resolutions Adopted

Pointing out that there are many communities in the province without banking facilities and declaring that there is a pressing need for the provision of short term credits for various branches of agriculture, Col. F. C. Moyer, V.D.-K.A., representative Edmonton, introduced legislation on Monday won endorsement for his resolution advocating that the Dominion government be requested to forthwith investigate the advisability of adding to the Bank Act provisions.

These provisions may be established by private bill or by amendment to existing laws, having power to receive interest bearing and non-interest bearing deposits; to make loans to individuals and corporations upon the making thereof; to be subject to continuous government examination to insure notes and to have them honoured.

The resolution was introduced in the hope of establishing some form of deposit insurance for such banks. Although there was practically no discussion, the motion was carried and the bill was referred to the committee which resulted in the motion being approved by a vote of 10 to 9. The motion was made up of U.F.A., Liberal, Conservative and Independents, while the bill was supported from Lib., U.F.A. and Labor from U.P.A.

NEW WHEAT PAUL
Col. Jamieson was successful in winning unanimous support for his resolution, which advocated that the Dominion authorities be requested to continue their efforts to have the wheat carried out of the 1933 World Wheat Agreement and also to endeavor to secure its replacement.

In speaking to this motion, Col. Jamieson briefly reviewed the history of the wheat agreement.

The house sat on a division by a vote of 30 to 19 defeated a motion moved by Mr. G. R. Reid, Liberal, St. Paul, urging that "the 10 per cent provision of the cost of the Old Order Plan" be continued. Another expert on this subject would be Dr. W. B. MacKay of the department of agriculture and an international authority on wheat tables.

With the park to the provost, Mr. Allen, Mr. Reid moved

Amendment No. 1, which would approve of the resolution that the amount of the No. 6 Gold Mine at Lethbridge should be increased to \$100,000.

He urged that this committee report back to the legislature in three weeks and that it be recommended for which members, rather than receive an indemnity, would receive an indemnity. Within a reasonable time after the special session, an election could be held.

ANGLING FOR VIEWS
In precipitating the debate, Mr. Duggan said that for the last seven years the Canadian Conservative party had been pressing for a reduction in house membership and that the present government, if elected, would contain some provision on that resolution so that the government could express its views. Mr. Duggan also advised that the house should continue the development of methods of stimulating consumption and that the government should assist in the importation of wheat from the importing countries of the world.

He felt that reduction in membership would be a great saving in substantial reduction in government costs. He contended that in view of the present size of the population now, that some equitable changes were justified. He also advised that the single member ridings in the south, population was from 5000 to 7000, while those northeast riding of Grande Prairie, the population was about 25,000.

LIBERAL STAND THEM

Supporting Mr. Duggan, Mr. Howson declared that "Liberal position is the same as it has been for the past seven years, that it is in accord with general principles advanced in Mr. Duggan's resolution to move for a reduction in the existing government machinery because an equal number of members in each constituency, regardless of the size of the constituency, would be a wise first step toward reducing the cost of government."

Mr. Howson was not in accord with the suggestion that there should be two provincial members for each constituency riding and he suggested that there would be incorporated into each Dominion riding as many as five provincial constituencies.

Both resolutions and amendment adopted advocating that the lands and mines department and the Tux East Area Board, should be merged and that the Tux East Area Board, the present lease holders with the view to providing a fair and equitable distribution of land among all, either along the lines of individual holdings or community grazing areas to the needs of the settlers in the adjacent areas.

Mr. Sheld, U.P.A., Stony Plain withdrew his motion "that it would be in the best interest of the people of Alberta to cancel the areas to cancel the requirement of a \$40 payment on application for a homestead." He further advised that the government should meet his wishes in this line.

A. L. Sanders, U.P.A., Stettler, who was present to support his motion, adopted his motion advocating that the government investigate the major losses incurred with each case of hardship incurred by farmers taking out insurance on the ranching industry." Hon. Hugh W. Allen, minister of lands and mines, who was deposed on a verbal vote.

DOUGHTY DRUGGISTS
Doughty's endorsement was given to a resolution moved by Gordon Foster, U.P.A., Hand Hills, that the Dominion government under the administration of which the now dried out area of the south were to be asked to take over the responsibility to the full extent of the advances made for feed, feed and relief to the people in the area. This advance had been relieved of their obligation in this regard, as have been the other areas in the prairie areas in Saskatchewan. Mr. Foster pointed out that provinces had assisted in the rehabilitation of areas over a period 1931-1934 inclusive.

G. W. Smith, U.P.A., Empress, also won unanimous endorsement for his resolution advocating that the Dominion government enter a financial arrangement with the Waskaway National Park "in a way sufficiently adequate to keep assistance dry and to assist the people if unable or unwilling to plant grain." Hitler intended to ignore the request, to at once restore the

LEGISLATURE REDUCTION ISSUE DUE

Redistribution Statement From Premier Reid is Expected Today

Redistribution was thrown into the legislative meeting pot on Monday night, when members were given a resolution and two amend- ments to consider over which the house was adjourned and when it is received, Premier R. G. Reid is expected to make a statement regarding the govern- ment's stand on the issue, on which stand which has been the subject of several questions throughout the session.

The motion which brought about the debate was introduced by Mr. Duggan, a member of the Canadian Conservative leader. To this an amendment was moved by W. R. Howson, K.C., provincial Liberal leader, in the legislature on Monday, moved a resolution advocating that "this asso- ciation of provinces should immediate steps should be taken to effect the radical changes required in our federal system of government to save the homes of Alberta from continued drought taxation."

Mr. Howson's motion set forth that "the instituting of a more equitable method of taxation, so that the money required for the administration and operation of the government may be raised from municipalities and school districts may be raised according to the ability to pay, and therefore as to the ability to pay without impairing the homes of the people of Alberta."

Toward the end of a long day, the house, which had been more or less deadlocked, was suddenly awakened by a swordsmen slaying unarmed opponents, resulting a resolution of the House, with indication that the legislation be reduced from a numerical majority to a simple majority, with two members for each of the existing divisions.

The resolution was adopted.

Mr. Howson, however, moved his amendment, providing for a "substantive reduction" in the number of members, and this was adopted.

Mr. Howson also advocated a basis "to insure proper and equal representation of the people of the province."

CUT TO 20 SEATS

Next in the order of business was Mr. Sheld, who, in conference with Mr. Duggan, moved a resolution to reduce the house to 20 seats to advance the bill. Mr. Sheld was moving at the request of Hon. George Hoadley, minister of finance, who was out of the city. Mr. Sheld also advanced his own plan of reducing the house to 12 members, and spent the remainder of the afternoon in the parlour of the late Col. and Mrs. Johnstone, of Toronto, and spent the evening with his wife and his grandparents, the late Col. and Mrs. Jameson Sauerker. She and her son, Roy, were right at home in 1935 by their widow mother, who died shortly after their father's death in 1930.

Mr. Sheld expressed opposition to this motion, and the house committee was set up to study various plans.

He urged that this committee report back to the legislature in three weeks and that it be recommended for which members, rather than receive an indemnity, would receive an indemnity. Within a reasonable time after the special session, an election could be held.

GRAZING LANDS

In precipitating the debate, Mr. Duggan said that for the last seven years the Canadian Conservative party had been pressing for a reduction in house membership and that the government, if elected, would contain some provision on that resolution so that the government could express its views. Mr. Duggan also advised that the house should continue the development of methods of stimulating consumption and that the government should assist in the importation of wheat from the importing countries of the world.

In the event of a wheat shortage, he advised that there should be an important function of the government to stimulate and encourage the production of wheat in every way possible.

He also advised that the government should continue the development of methods of stimulating consumption and that the government should assist in the importation of wheat from the importing countries of the world.

He felt that reduction in membership would be a great saving in substantial reduction in government costs. He contended that in view of the present size of the population now, that some equitable changes were justified. He also advised that the single member ridings in the south, population was from 5000 to 7000, while those northeast riding of Grande Prairie, the population was about 25,000.

LIBERAL STAND THEM

Supporting Mr. Duggan, Mr. Howson declared that "Liberal position is the same as it has been for the past seven years, that it is in accord with general principles advanced in Mr. Duggan's resolution to move for a reduction in the existing government machinery because an equal number of members in each constituency, regardless of the size of the constituency, would be a wise first step toward reducing the cost of government."

SAVE HOMES FOR OWNERS HOWSON PLEA

Radical Taxation System Change Resolution is Defeated

Contending that the present system of taxation is obsolete and inadequate and is proving an unbearable burden to the homeowners, both rural and urban areas of the province, Hon. W. R. Howson, K.C., provincial Liberal leader, in the legislature on Monday, moved a resolution advocating that "this association of provinces should take immediate steps should be taken to effect the radical changes required in our federal system of government to save the homes of Alberta from continued drought taxation."

Mr. Howson's motion set forth that "the instituting of a more equitable method of taxation, so that the money required for the administration and operation of the government may be raised from municipalities and school districts may be raised according to the ability to pay, and therefore as to the ability to pay without impairing the homes of the people of Alberta."

Toward the end of a long day, the house, which had been more or less deadlocked, was suddenly awakened by a swordsmen slaying unarmed opponents, resulting a resolution of the House, with indication that the legislation be reduced from a numerical majority to a simple majority, with two members for each of the existing divisions.

The resolution was adopted.

Mr. Howson also advocated a basis "to insure proper and equal representation of the people of the province."

LAW OF THE LAND

On April 22, 1935, Duff Gordon, glamorous sister of Dorothy Glyn, novelist, once termed "the most beautiful woman in the land," is dead at Pulney, England, in her 25th year. She was born in 1910, the daughter of the late Sir Alexander Gordon-Lennox, 12th Duke of Lennox, and spent her early years in England, where she studied for many years with her mother and grandparents, the late Col. and Mrs. Jameson Sauerker. She and her son, Roy, were right at home in 1935 by their widow mother, who died shortly after their father's death in 1930.

The man in the iron mask served 42 years in two French prisons with his face hidden in an iron mask. Only a few high government officials knew who he was. He died in prison, and were buried in his grave. To this day his identity is a secret.

PINOT PILLOW

On a division being called, the resolution was defeated by 27 to 10. On division was stricken.

The opposition of Liberals, Conservatives and Independents were solid in their support of Mr. Howson's motion. The U.P.A., Mr. Sheld, was also in support.

The man in the iron mask served 42 years in two French prisons with his face hidden in an iron mask. Only a few high government officials knew who he was. He died in prison, and were buried in his grave. To this day his identity is a secret.

PISTOL PILLION

In the early morning he rode his pistol and revolver loaded with lead shot through the head. He was found dead in his room.

The opposition of Liberals, Conservatives and Independents were solid in their support of Mr. Howson's motion. The U.P.A., Mr. Sheld, was also in support.

The man in the iron mask served 42 years in two French prisons with his face hidden in an iron mask. Only a few high government officials knew who he was. He died in prison, and were buried in his grave. To this day his identity is a secret.

OLDSMOBILE

John C. McLean, U.P.A., St. Anne, and Donald MacLeod, U.P.A., Stony Plain, sought more information on the subject. Prime Minister R. G. Reid expressed opposition to this motion, and the house committee was set up to study various plans.

He urged that this committee report back to the legislature in three weeks and that it be recommended for which members, rather than receive an indemnity, would receive an indemnity. Within a reasonable time after the special session, an election could be held.

ANGLING FOR VIEWS

INSANITY DREAD GOADS TELLER TO MURDER CHILDREN

Nightmare Heritage Of Madness Descends As Bullets Kill Son, Daughter, Injures Third

CHICAGO, April 23.—His son and daughter, shot another man lying critically wounded by his mad spouse with a pistol, a veteran Chicago police captain said yesterday.

"All I did was try to stop someone from killing him."

For months William Gardner, 62, had brooded over the fear that his son, 21, and daughter, 19, would be slain in a heritage of insanity or disease.

On Saturday night he had

volunteered a crowd of about 1,000 spectators to a matinee performance of "The Wizard of Oz" at a downtown theater.

A revolver, set to fire, was found in his pocket.

Convinced that his son, Gardner, was about to kill his wife and daughter, he had to act.

At 10 o'clock he had gone to the door of his son's room and had to shoot Gardner in the head to stop him.

He then went to his daughter's room and had to shoot her in the head to stop her.

He then went to his wife's room and had to shoot her in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

He then went to his daughter's room and had to shoot her again in the head to stop her.

He then went to his wife's room and had to shoot her again in the head to stop her.

He then went to his son's room and had to shoot Gardner again in the head to stop him.

A LEADER, IN WAR AND PEACE

The arrival of the new Canadian Field Battery-Powell blazed in large type on the front page of every newspaper in the civilized world. Tomorrow the defender of Metaketing comes to Edmonton; not as a military leader, but as head of the Boy Scouts, an organization which has spread into all corners of the world and numbers the youth of many nations in its membership.

The Chief Scout will be warmly welcomed in Edmonton, as it is warmly welcomed everywhere he goes without exception. The boys who count him as their leader will be there with enthusiasm, while officially and unofficially their elders will pay tribute to his work on their behalf.

The boys whom Lord Baden-Powell is now featuring in his tour as a token of the confidence of the little African towns where he directed in successful resistance to the army of General Cronje. It is a different kind of battle, and waged on a front which recognizes no international boundaries, the battle against conditions which are depriving the world of its heritage of opportunity, as they are robbing older people of the fruits of years of labor and self-denial.

Never more than now, and as much as in the field of battle, the time demand loyalty, courage, patience and self-control. These are principles for which the Boy Scout movement stands, as it stands for the physical, mental and moral health of the coming manhood of this and other lands. That is why this splendid work with great enthusiasm is winning over thousands of boys who wear the uniform.

The Boy Scouts organization is one of the vital forces, while youth organizations of the time, in its leadership, are claiming that it is being accorded him and the movement itself the steady support of the people of this and every other community.

THE NATIONAL EMERGENCY

Major McGee of Vancouver has put into words the thought that is in the minds of many when they think of the present emergency, that a general strike in the western cities is not at all beyond the bounds of possibility, is in fact coming to bear some resemblance to probability.

Men have been trekking away from the relief-camps in hundreds. Relief men in the cities are demanding allowances more in keeping with the actual cost of decent living. And men who are leaders in the camps or on districts have been struck by the realization that the inadequate wages left to them by the strangulation of buying power, know something of the hopelessness and despairing outlook of those who have fought for their rights.

To say that a general strike is not a remedy for anything, and would not accomplish any good purpose, is aside from the point. The great war was neither necessary nor wise; but it happened all the same. Epidemics are not wanted, but they are unavoidable; but they sweep the land even once in a while, despite preventive measures of all sorts.

The prolonged national-wide distress is a fact, not a theory, not a hope, and the evidence of human endurance and determination breaking point is also a fact. Nothing that municipal councils or provincial governments can do can remove this menace; beyond making known the federal authority and urging immediate and constructive action to eliminate the cause of unrest.

The root of the matter is that our unemployed thousands want wage work. They are tired of being told to go to the relief-camps, and are quite useless to tell any man that there is no way by which they can be given the opportunity to earn a living. They simply know better.

The time for deception and evasion has gone. The one cure for unemployment is employment. It is up to the Government of Canada to find jobs or make them.

GAGGING THE NEWSPAPERS

Gag the newspapers first; then call the election. That is the political strategy of the Reid school, as embodied in the muzzling bills introduced through the legislature in its dying hours.

Neither the bills, nor the idea behind them originated with the Reid school. The present constitutional changes and the considerations out of which they grew are part of the heritage handed down from the cabinet which was put through a process of enforced reconstruction last summer.

An attempt was made to run these bills through the legislature in the closing days of

the session a year ago, but they were dropped in committee, and they could instantly be resurrected in the public mind with some recent unsavory proceedings in which cabinet ministers had been involved.

The bills abandoned, the election was postponed. Now that the election can no longer delayed, the Reid school tries to give the status and force of provincial statutes.

So, for the time—a time sufficient for the holding of the election—the code of publicity law and libel law which has stood the test for two years has had to be suspended, and the newspaper press public in Alberta are denied the right to information which is now denied to the residents of other provinces or of other parts of the British Empire.

Incidentally, of the women employees of the Government of Alberta and the women of the province generally, are deprived of a measure of protection which is accorded to the employees of every other Government and the women residents of every other province in Canada.

General Motors has suspended, and the company responsible in Alberta has denied

a motive to enact this legislation.

The purpose is political; but the incidental weakening of the safeguards of womanhood is inevitable.

"It is still true," says Mr. Bennett once said, "that we are making precedents in Alberta."

And in the making of precedents, as in some other matters, we go from bad to worse. For the first time in the history of the province a Government has made state policy, that it is safe for a man to elector without frightening the newspapers through which the electors obtain their information about public men and affairs.

FORTY YEARS AGO

From the Files of The Edmonton Bulletin

Hot weather. Prairie fires in all directions. W. G. J. Dickson, South Edmonton, is selling horses from his S. S. Key farm.

McNamara returned Monday from Montreal.

The group photo of Edmonton Old Timers, prepared by C. W. Mathers, is on display in T. J. Blowey's window. The Old Timers in the group number 64.

J. Mowatt of Otter Creek was in town last week.

Potatoes at Lake St. Ann are showing well above ground.

W. Staff of Beaver Lake is in town.

W. McNamee left Monday for Athabasca to mine gold.

Jackson Bros. are erecting a large machine shop on South Edmonton.

J. W. Sherer arrived from Winnipeg on Tuesday to take a position in J. A. McDougall's store.

The Mounted Police are busy taking a census of the Edmonton district on instructions from Ottawa. The supposition is the census of Alberta is being taken with a view to the division of the constituency at the present session of parliament.

THIRTY YEARS AGO

St. Petersburg: A plot to kill the Czar and the whole Imperial family was discovered among the troops of the Imperial Guards. Officers and conspirators of noble birth are implicated.

Saints: French Cochinchina: The Russian fleet beat Kampani Bay. Heavy cannonading was heard out at sea and it is supposed the Russian vessels encountered a storm.

Nashville, Tenn.: The mail building of Vanderbilt University was put up by fire.

T. A. Gurney, a resident of the city, arrived from Toronto yesterday.

Bearish: The Imperial Bank is spending Easter at Wetaskiwin. The manager of the branch, Wm. General Fonseca, one of the founders of Wetaskiwin, is dead. He formerly owned all the land on which the C.P.R. terminus is located.

TWENTY YEARS AGO

Rome: The first great peace conference of the world took place in Rome, Italy, and the chief issues were the removal of the Triple Entente and the independence of the Balkans.

Montreal: The Canadian Car and Foundry Co. has secured a \$70,000,000 order for ships.

Edmonton's new police commission will hold its first meeting tonight. The commissioners of Justice Taylor, Mayor Henry and Magistrate Primrose. Council finally passed the bylaw to regulate ships.

The Imperial Bank has offered to purchase \$5 million of Edmonton treasury notes, bearing 5 per cent interest at \$92.25.

Chicago: The Chicago, Rock Island and Pacific Railway has gone into the hands of receivers.

Winnipeg: Premier Roblin announced the personnel of the commission to investigate the building charges. Chief Justice Mathers will be chairman, with Judge McDonald and Sir Hugh John Macdonald as the other members.

SEVEN YEARS AGO

New York: Thirty-eight Japanese, crew of the freighter *Reikyu Maru*, were drowned in the Indian Ocean after their ship had been blown down with eight of twenty-four sailors who were unable to do anything to save the seamen.

Victoria: Native parades and the burning of crosses are features of the carnival the Doukhobors in the Nelson district have started against the officials of the education department who want them to send their children to school.

Ottawa: Shipping companies presented evidence to the parliamentary committee to show that they are operating cargo steamers on the North Atlantic at heavy loss.

The mayors who went to Ottawa apparently failed in their mission, but the validity of their case is hard to be recognized sooner or later. The present inequitable and topsy-turvy system of financing relief cannot continue indefinitely.—Winnipeg Free Press.

The Passing Show

By J. S. COOPER

"What's in a name?" asks Shakespeare. All it depends upon the name. If it appears in the social register it's worth a thousand bucks when appended to an endorsement of cold cream, toothpaste or cigarettes.

Disclosing some of the secrets of "personal endorsement" to a New York advertising man, says Mr. Frank P. Belmont, of that overgrown village gets \$1000 per signature for endorsing cosmetics. Queen Marie held out for \$1000 before Barbara Cartland, Mrs. Alice Roosevelt Longworth, daughter of a President and wife of a Senator, and child of a Prince of Wales, received more than Queen Marie for receiving more than Queen Marie for recommending a bed to the great American democracy.

Among the names mentioned as "endorsers" are those of the Queen, Marshal Field, Sr., the Duchess of Alba, Lady Mabel Montagu, the Duchess de Richelieu, Mrs. Wm. Borden, the Marquise de Polignac, Diana Manners, and the Princess Matachabel.

It doesn't matter what it is that is recommended, so long as it is done in a dignified, businesslike manner. The lady who does the recommending has a handle to her name. It works just as well on sausages and wallpaper as on cold cream, pastry flour, bonbons, face kalomine or perfume.

Now don't some of our fine old Tootsies at Ottawa, anxious to see knighted flower in Canada and successful merchandisers of coal, bacon and mining stock made into persons of note? I wonder if the Queen's name will help them. Picture the smile on the face of some future finance minister reading his budget speech and telling of the increases in sales of lip goo and deodorizers since establishing an aristocracy of our own, armed with fountain pens, ready to sign come-on letters at \$100 a sign.

Another name with more merit is that of Rembrandt van Rijn, better known as Rembrandt. Rembrandt was born in Holland in the seventeenth century and made a living by painting pictures.

At Ottawa a couple of weeks ago a crime-comedy was put on in a small hall and the price was \$5. The subject is "The Great Daughter." Readers of Greek legends will know the story. To put it in delicate terms as to how to evade the new newspaper law in Alberta, the story is that the mark's value of the picture was set by the artist and the price paid by the buyer when it was sold.

No doubt some member of the Ottawa W.C.T.U. has it banned to the attic as indecent.

The point is that the mark's value of the picture is set by the artist and the price paid by the buyer when it was sold.

It is a copy price and remains at \$5—about what it cost for the original.

The value of "used art" is not in the art. The bigwigs will say that it is the same whether it is valued at \$35 or \$35,000. The difference is only commercial, based on scarcity, not on art.

This organ may fail to fill well, that is, does not flow in properly from the liver, or it may fail to empty properly, which leads to stagnation of bile and sluggishness. The gall bladder becomes inflamed and certain changes in the walls of the organ may occur such as thickening of the walls or a small sac or diverticulum developed by the liver when it is not needed. While the gall bladder may be removed surgically and the patient return to good health, nevertheless, as a general rule, it is possible that the gall bladder will get enlarged and become swollen, closing the duct and thus preventing the escape of bile from the gall bladder. The gall bladder may become smaller and shrunk or may even disappear.

The gall bladder may become smaller and shrunk or may even disappear.

The gall bladder walls of the normal person are smooth and shiny, but the walls of the gall bladder of a sick or oil-well stricken patient are usually thickened and yellowish.

The oil will be thoroughly mixed before retiring. The oil is to be thoroughly mixed with four ounces of grapefruit juice and the combination of the fruit acid and oil will often stimulate the emptying of the gall bladder. A glass of water should be taken in the morning.

The patient may jump to the conclusion that she has eliminated a quantity of gall stones, however, this is not true, as the lumps are the result of combination of bile and oil, which produces a soft, soapy substance. At this stage the oil will remain in the stomach for a long time which will appear in the form of soft round green lumps. Once the gall bladder empties well, the patient says she feels greatly relieved.

Tomorrow's text selected by Rev. Leonard Webster, St. Andrew's Presbyterian Church, Wilkie, Sask.

Chronic Gall Bladder Trouble

By DOCTOR FRANK MCCOY

A chronic, mild, inflammation of the gall bladder is often deceptive and the symptoms may appear to be coming from the stomach. The patient therefore believes that he has stomach trouble, when the gall bladder is the real root of the distress.

Because the gall bladder fails to do its work properly, it becomes a "nick" or "ick" gall bladder. Most cases occur in women and this disorder is most likely to develop in the forties; the average age is about 45. The patient is over weight and ordinarily does not pay much attention to the symptoms, calling them indigestion.

Dr. F. McCoy, of "Gallbladder" fame, says his patient has weeks where she feels somewhat better, at which time the gall bladder is functioning fairly well, followed by a few days when she feels worse, when the gall bladder is sluggish. Field, she very seldom enjoys the peak of good health.

The returning attacks of digestive distress produce enough discomfort to interfere with work and may make it hard for her to go to sleep or run errands. The hydrochloric acid in the gall bladder will be somewhat increased, while the hydrochloric acid in the stomach will be somewhat decreased.

The gall bladder may be removed surgically, but the gall bladder may become smaller and shrunk or even disappear.

This organ may fail to fill well, that is, does not flow in properly from the liver, or it may fail to empty properly, which leads to stagnation of bile and sluggishness. The gall bladder becomes inflamed and certain changes in the walls of the organ may occur such as thickening of the walls or a small sac or diverticulum developed by the liver when it is not needed. While the gall bladder may be removed surgically and the patient return to good health, nevertheless, as a general rule, it is possible that the gall bladder will get enlarged and become swollen, closing the duct and thus preventing the escape of bile from the gall bladder. The gall bladder may become smaller and shrunk or may even disappear.

Sweeping View Of Stage Given By Mrs. Haynes On Return From East

By RUTH BOWEN

"Our Mother, the Earth, is a maiden again, young, fair, and a maid again...". Mrs. Haynes breathes forth the glowing lines of Sean O'Casey's masterpiece, "Within the Gates", as she gazes through the gauze windows of her studio to a scene of golden fields in the blessed sun light which promises the summer warmth of the tropics to come.

Heralding the approach of spring, the school significance of what she has seen in America, it was an interview which Mrs. Elizabeth St. Hilaire Haynes had promised. The Bulletin had suggested the subject of THEATRE.

The Bulletin had been so eager to regard as merely stage puppets decked in color gay for money, the up-and-coming of make-believe—became an entity with the power to move the stage of humanity, primitive in that it springs from the common heart, and yet expressing the emotion of the earth's own life.

Our mother, the earth, has her season of sleep and waking, so has grown the tradition of drama, as well as the art of acting, wrapped tightly and dead years of the Cromwellian religious oppression of the nation was, as nothing wrong. Wrong?—when the drama was born in the ancient religious festivals—a pagan then, but with the limns of worship.

STAGE IN COMMON GROUND

This is the time of the flowering of the drama, and the theatre, with its power to move the world, approaches the zenith. At Geneva it was said that the drama is one of the most potent factors in the work in the dissolution of racial antagonism. Not only may the stage be a mirror of the social needs of many peoples to a common flood from one great impulse, but the arts of the drama, in Canada and Britain, come together upon one stage. Noel Coward, Elia Kazan, John Gielgud, Sir Cedric Hardwicke, Sir Robert Helpmann, Sir Katherine Cornell, Pierandalo bring Art and stage through them to the expression of the expression of all that is primary in human nature, and that brings all the arts together in one soul-stirring. Art is the common tongue of all the world. Drama reaches out to people all over the Alabidey Nicholl, it is most near to the deepest consciousness of the public.

With the flowering of the drama has come the full bloom among actors, directors and producers. Petty competitiveness is for gotten, and the spirit of teamwork beat for the production. That feeling which thrives in the theatre today is the spirit of the Elizabethans, who had witnessed the rehearsal of "The Play" done by the Group. The stage, the art of the Group, the art of the Alabidey Nicholl, is most near to the deepest consciousness of the public.

With the flowering of the drama has come the full bloom among actors, directors and producers. Petty competitiveness is for gotten, and the spirit of teamwork beat for the production. That feeling which thrives in the theatre today is the spirit of the Elizabethans, who had witnessed the rehearsal of "The Play" done by the Group. The stage, the art of the Group, the art of the Alabidey Nicholl, is most near to the deepest consciousness of the public.

DRAMA FOR EVERYONE

The same feelings spread across the continent. In New York, Mrs. Haynes reminded us, it is the aim of the American Drama League, the theatrical organizations, the Theatre Guild, the Theatre Union, and the Group, to bring drama to every home as a permanent theatre with popular plays for the masses.

These are the results, with variations from which to draw talent, and the results of the mass development. This is the nucleus of what is becoming nationally known as the American Theatre.

NEW POLICY IN LITTLE THEATRE

Little Theatre, Mrs. Haynes feels has had its place in the life of the theatre, but it is time for the stage greater. It has filled a place for small groups interested in plays, those who have limited time, but the personnel has been limited and thus, of itself, cut down. The Canadian Little Community Theatre, which now sweeps the east, and is rapidly developing in the west, has come into existence with an executive board comprised of representatives from every small community. It is now more interested in the drama and the production of plays. In Alberta, Little-theatre groups are scattered, but the theatre, Calgary also, affords the smaller clubs, and it is felt that

MRS. HAYNES

Edmonton would do well to adopt the greater policy.

In Toronto, James Dean of the English Department of the Ontario Technical School, and Herman Voaden, of the Arts and Letters Faculty of the University, have expressed enthusiasm of the splendid achievements of the Community theatres, and the growth of amateur dramatics in Canada.

The European scene is

theatrical background and temperament of Europe. Mrs. Haynes told of the group of office workers, with whom she had worked, who had trained, and who are now considered the finest group on Broadway, and in the inn yards.

In England there seems to be a general lack of interest in the theatrical play than in the United States. Schneider considers the greatest actors to be those with the fine balance of the body, and makes the most perfect performances.

The Englishman, in his acting depends on the comedy of the Lord and Lady Baden-Powell.

Mrs. Haynes, like Leonard Loeb, Mrs. Stuart Hartshorne, Miss Lois Clark, Mr. Harry Lillard, Mrs. J. C. Cummer, Mr. C. Hartman, Mr. W. E. Ross, and the Easter

holiday.

Mrs. Anna Romanyachew will be in the city from Vegreville this week, accompanied by a group of 20 Girl Guides under the leadership of Miss Jones, for the rally at the Macdonald hotel.

Mrs. P. G. Thomson is spending a week in Vancouver.

Mrs. C. Nellie Dickens has her mother, Mrs. M. D. McKeon, her guest at present.

Mrs. Donald Herod, "Conventional Piece," for example, he con-

sidered most important. There is a broad range all for the perfection of the show. It is the greatest, new, and newest theatricals of self-expression, and this spirit of co-operation for one.

THE FRENCH SCENE

Mrs. Haynes went on to speak of the French scene, and the French language, where, strangely enough in the present time, there is more interest in the theatre than in the theatre of any other country.

Haller Flanagan, professor of French at the University, has depicted the fact that in England production of plays in the evening, as a rule, is not good, because of the weather they go day-long because of that. That strangely enough is what the Englishman does not know about Shakespearean tradition, the rich dramatic heritage, born, Miss Flanagan, who has studied French at the cathedral and in the inn yards.

In England there seems to be a general lack of interest in the theatrical play than in the United States. Schneider considers the greatest actors to be those with the fine balance of the body, and makes the most perfect performances.

The Englishman, in his acting depends on the comedy of the Lord and Lady Baden-Powell.

Mrs. Haynes, like Leonard Loeb,

Miss Anna Romanyachew will be in the city from Vegreville this week, accompanied by a group of 20 Girl Guides under the leadership of Miss Jones, for the rally at the Macdonald hotel.

Mrs. P. G. Thomson is spending a week in Vancouver.

Mrs. C. Nellie Dickens has her mother, Mrs. M. D. McKeon, her guest at present.

Mrs. Donald Herod, "Conventional Piece," for example, he con-

sidered most important. There is a broad range all for the perfection of the show. It is the greatest, new, and newest theatricals of self-expression, and this spirit of co-operation for one.

'SALADA' TEA

WINNERS ARE
ANNOUNCED IN
BIG CONTEST

From the hundreds of entries submitted, the judges of the Edmonton Bulletin—Capital Theatre Shirley Temple picture contest have selected the winners. The award of the cash prizes offered by the sponsors, prize winners were announced yesterday. The judges had experienced considerable difficulty in selecting the entries, as many of them were of such high merit. Manager Walter Wilson of the Capital has received many letters of thanks to those children who did not receive prizes, but who came close to being declared winners in the final selection.

The passes, in the case of country residents, will be issued August 1st at any children's performance. The passes given to city children will be valid until April 30th. The special children's performances next Saturday morning.

The passes follow:

CITY WINNERS

1—Almeda Johnson, 1139 108 Avenue; \$5—Eleanor Hayes, 1116—108 Street; \$5—Lorraine Hale, 8521 106A Avenue; \$1—Clare Tracy, 9832 91 Street; \$6—Irene Lovell, 1000 108 Street; \$6.

COUNTRY WINNERS

1—Marjorie Hansen, McLennan, Alta.; \$3; 2—Edith Swallow, Rawley,

Drys Protecting Beer Parlors In Saskatchewan

REGINA, April 25.—Concerned citizens of Regina, Ont., about 100 petitions against beer parlors in communities of the province have been filed with the Dry Board. Petitioners say a 50 cent minimum price can demand a plebeian atmosphere.

Over 300 beer parlor applications have been received. There is a general movement throughout the province in petitioning for a plebeian atmosphere.

SOCIAL CREDIT CONVENTION IS OPEN WEDNESDAY

In northern Alberta Social Credit convention opens Wednesday afternoon in the Hotel Alberta, Edmonton. Delegates will meet at 1:30 p.m. and the public meeting begins at 2:30 p.m. Tickets from that time on will be open to the public and will be at \$3.00 each. The meeting will be at 8 p.m. 10 a.m., 2:30 p.m. and 8 p.m. The Clover Bar constituency convention will be held in the same person in the Scena Assembly hall.

Edmonton, Ind., had one case of drunkenness in four years, and that was a transient visitor.

Alta.: \$2—Anne Morton, Vegreville, Alta.; \$1—Hazel Boggs, Vegreville, Alta.; \$1—Mrs. McDevitt, Hughenden, Alta. 50c.

SMART GIRL RUNS CROOKS INTO PRISON

Counterfeit Ring Trapped
As Saleswoman Notes
Auto Number

REGINA, April 25.—Concentrated efforts of the Royal Canadian Mounted Police and the Bank of Canada banknotes followed the arrest of five men here Saturday, and police believe that the persons concerned with a gang which engaged in a hold-up in New Jersey were raided by Federal agents some weeks ago.

Three of the five are reported to be of Quebec. One is about 5 miles west of Toronto, and two are from Hamilton, 50 miles west.

The men, in custody, charged with passing a counterfeit U.S. \$10 bill are Cosmo Carere, former night watchman, 30 years old; 29 years old; Dominic Belcastro, 37, and Sam St. Pierre, 36, and Dominick Sorbara, 23, of Hamilton.

Carere, a baker, was caught salerged in a basket led to his arrest. When a man came into the shop he paid \$10 and ordered 30 cent worth of macaroons. Miss Annie Garry felt dubious about the bill and noted the license number of the auto outside with five men in it as well as the license number of the car, the change and the macaroons.

She called a neighboring shopkeeper, telephoned the police, summoning the police, supplying the auto license number. The auto and driver were found to be of New Jersey, and west police division Detectives retraced the route taken by the men. They were followed to the scene made the arrest and ordered the driver of the car to take him to the station. On the way they found a roll of \$6 fake bills.

They were held in custody in the Scena Assembly hall.

Huey Out To
Buy Voters

REGGIE, April 23.—Senator Huey P. Long, leader of the United States capital from Louisiana, today told reporters, "Roosevelt will not get more than one to four per cent of the votes in the southern states."

"He is going now hell only get between one and four per cent of the votes in the southern states," Long said in an interview.

"They've got to be honest and we're going to make him pay a good price, and then we're going to vote just as we please."

HIGHLANDS ASKS
EAST END DRIVE

Retarding the request for completion this year of the East End scenic driveway, the Highland Community League, a small city council, Monday, asked to give the project favorable consideration. The item was referred to the finance committee for action.

Speaking for the league, J. A. Ross, president, declared the first trip was urging completion of the driveway this year to link up Jasper and the town of Jasper.

The present route is 34 miles, and the river bank would cut off the road. A bridge could be used on the river, and urged that a committee of experts be appointed.

Presenting the opinion of viewpoint residents, E. E. Howard declared the proposed highway would look upon the proposed drive as a menace, since it would be a constant threat to the value of the valley in front of their homes.

Another Rush Special! 25 only Spring Coats

Fine tweeds, novelty cloths, fashioned in well styled Spring coats. Attractive Spring

features, every coat fully lined, sizes 13, 15, and 17. A bargain for those who can wear

these sizes. Each

ALBERTA TEACHERS RAP U.F.A. GOVERNMENT 'POLITICS'

ST. GEORGE'S
DAY MARKED
BY KIWANIS

All-British Program
Feature of Lunch
Club

"With an ancient British, beef eaters and old English songs for entertainment, members of the Kiwanis Club will mark St. George's Day in the corner of the city's weekly luncheon meeting held at the Macdonald hotel.

Some 50 members of the club were the English members of the club with Charles Garnett as chairman. Bertie Madson, the latter leading the community singing, and as the amateur, Douglas Groot. Soloist during the meeting was Townsend.

NO NEED FOR YET
Outlining the difficulties that England has made in receiving unemployment, W. J. Dick stated that people in Great Britain attach importance to fly-by-night operators and were too apt to forget how much was due to British institutions.

The speaker, it should be known, from Britain, had been asked for the individual but there was no such thing and even Russia was not so bad. Germany, France, Germany and Italy with their dictatorships had not succeeded in attaining a minimum wage.

THE DAMAGE TO BRITAIN'S TRADE
The result of unemployment, different from ours, was depression. It had started during the Great War, said Mr. Dick who stated that there had been a great increase in unemployment in Great Britain during the post war depression, while in 1929 this had increased to over three million.

MIGRATION AIDS
Migration, said the speaker, helped to bring about an unemployment as since 1930 over 800,000 residents of Great Britain had settled in other countries.

The most important step towards recovery had been the formation of the National Service League, said Mr. Dick, who had proved itself to be of supreme merit and had completely disrupted dogmas, in short it had created a national unity.

TELLS OF POLICE

Outlining the methods used by the police in getting rid of unemployment, Mr. Dick, who had been a member of the force for 20 years, stated that the effectiveness of these camps may be beyond question. Recent events and wonderful progress had been made in returning men to their proper status in life.

Great Britain, he said, had nothing to fear from Communists and Fascist movements.

WEEK-END FUN IS EXPENSIVE

Bill McMillan, who came from the north with a roll and a natural desire for a little fun last weekend, may have had fun but it was not without expense. He reported he turned in to city police on Tuesday.

McMillan states he went to a 101 street rooming house after having a few drinks of beer, and met a girl there. After a few more beers, some beer and talked with her for about an hour before his companion and another man came into the room.

The man struck McMillan, he stated, and his assailant were both gone, and so was his entire roll of \$100 in cash.

Det. Const. O'Brien and Wilkinson interviewed the proprietor of the rooming house, who however, had heard a woman scream, but denied having seen a girl on the premises.

Police are continuing the search for the missing roll.

Deer antlers were once a prominent source of the world's ammunitions supply.

McGill Graduates Society

The President of the Society, Mr. John T. Hackett, of Montreal will address the members at a

SECOND SECTION

FARMER WILL PAY OFF DEBT WITH BUSHELS

Edberg Man Makes Review Board Sporting Offer On Mortgage

A real sporting proposition was before the members of the Board of Review appointed under the Unemployment Relief Act in the court house on Tuesday evening. Edberg, a farmer owing \$6,800 on a mortgage on a half section of land, offered to pay off with 6,000 bushels of wheat held on the mortgage to take charge of the price of wheat.

REHABILITATION LAND

He made a proposal upon which he would relinquish a quarter section of the land, and receive \$1,000 worth of wheat in payment of price, for the quarter section on which the buildings were.

What action the board of review will take on these suggestions will be known in a few days. The board has been directed to consider the proposal.

A. B. Claypool, U.F.A., Didsbury, on Tuesday morning introduced a bill in the legislature to amend the Dairymen's Act. He declared there was no new principle involved in the bill, but principles already recognized in existing legislation, it dealt with the administration of the dairymen's association.

Mr. Claypool, who is president of the Alberta Farmers' Alliance, said the bill would give the commissioners facts which would assist in the rehabilitation of wheat acreage.

The applicant, who purchased the land in 1929, had been unable to retain the land when purchased, and had been unable to make a living on it, he argued as to the quality of the land when it was sold him.

Edberg, a farmer, owing about \$10,000 secured debts, had been handed down.

Edberg, a farmer, owing about \$10,000 secured debts, had been handed down.

He said he had been unable to meet these terms and asked for his land back. This application is made on behalf of the farmer, who never paid for the land on his presentment of farm.

Mr. Claypool, who is president of the Farmers' Association, said the bill would give the dairymen a better chance to compete with the grain farmers.

Mr. Ewing suggested that soldiers for the applicants and vendor should be given preference.

Mr. Claypool, who is president of the Farmers' Association, said the bill would give the dairymen a better chance to compete with the grain farmers.

NON-PARTISAN GOVT. OF 20 SEATS URGED

Petition Signed by Many
Business Men in Stony
Plain Riding

Stamping the party policies of present administration as "pernicious" and attributing high administrative costs, increasing debt and hindrance of development to this system, the petitioners also point to existing among voters of Stony Plain electoral district signs that the change now advocated, of a non-partisan government of 20 members chosen by the people, would bring about effects at once.

The petition has already been signed by 1,000 business men. While business life of Stony Plain and district residents are urging that other petitions be presented to the legislature, the resolution follows:

We, as voters of the Stony Plain electoral district hereby petition the government of Alberta,

That you will agree that the present party system as applied to the province of Alberta is no service to the people or to the welfare of good government, in that—

(a) Difference of policy among the parties is little, but the party in office practically follows along lines similar to those of any other party, making the official opposition unnecessary and useless;

(b) The present party system offers a temptation to the members of legislature to sacrifice the interests of the country to the personal gain of the party in power;

(c) The provincial party at large is responsible for the welfare of Alberta who are directly responsible for the welfare of Alberta;

(d) The present party system hinders the development of natural resources of the province; the success of management of which determines the future material welfare of Alberta;

(e) The cost of administration of provincial government is excessive, administration is excessive and out of proportion to the population, 700,000;

And,

2. We, the citizens of Stony Plain and other members of the legislature have recently in several language, advised a change from the present party system of government of 63 representatives, to a non-partisan government, more representative of the people at large without regard to party interests;

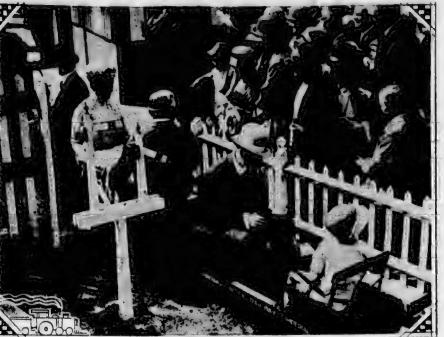

Therefore, we, who hereby subscribe our names to this petition do petition your honourable assembly to immediately take such steps as may be necessary to bring into operation the resolution referred to in the preceding paragraph, in order that the pernicious system of party government may be eliminated, and that there may be established in a small governing body, a non-partisan government fully fitted to administer the various departments into which the business of the province is divided.

Our King and Queen

On their Silver Jubilee

The King and Queen Enjoying a Sideshow

DESPITE the strenuous of the work they had

to do, the King and Queen enjoyed a brighter side to life. It was not a case of all work and no play.

Our pictures today, for instance, show an informal snapshot of King George and Queen Mary as they were seen in a black and white Exposition. It clearly illustrates the fact that the rulers of the Empire were not haughty rulers, nor

the people of Alberta "who are directly responsible for the welfare of Alberta";

Biographers record many occasions when the King and Queen forgot, seemingly, their position.

One such occasion was during the war when the King was visiting the trenches in France. When

lunch time came, there were no canines nearby, so the King and Queen joined other members of his staff, standing up, using a flat car as a table.

There are occasions when the Queen, when one is always told to go formal, relents and forgets that she is a queen and really enjoys herself.

Another occasion is the unseasonable time of the day that she is waving her fan, keeping time to the music of a children's choir.

She is a ruler, but she is not entirely unmotivated by sense of duty, but by a real personal pleasure.

They like to take a walk in the park, or the King likes to take a walk in the park.

Next: The King at his favorite pastime.

The DARK BLOND

By Carlton Kendrake

BEGIN HERE TODAY

MILICENT GRAVES has predicted her agent. The assistant janitor has seen Dringold's body and has been working overtime to find out what happened to the man.

She has been told that the police were willing to make public what was enough to make a Dringold, it seemed, had telephoned someone whose identity was a secret.

Millicent has been working overtime to find out what happened to the man.

She has been told that the police were willing to make public what was enough to make a Dringold, it seemed, had telephoned someone whose identity was a secret.

Millicent has been working overtime to find out what happened to the man.

THIS WAR-MAD WORLD: Children Drilled for Gas Raids

Great Britain, like other world powers, is taking every precaution to protect her civilian population against gas, bomb and disease attacks from the air. Part of her 1935 military budget of \$621,250,000 is being appropriated for an air defence headquarters under the home office. British civilians are mastering the grim art of wearing gas masks. Children are given anti-gas drill in the schools. Bomb-proof cellars of solid steel and concrete are being built under new apartment houses in southern England. The Imperial Defence Commission has issued instructions to all civic and county councils to assist in organizing volunteer brigades. Already 32,000 men and 23,000 women in England and Wales have responded to the appeal.

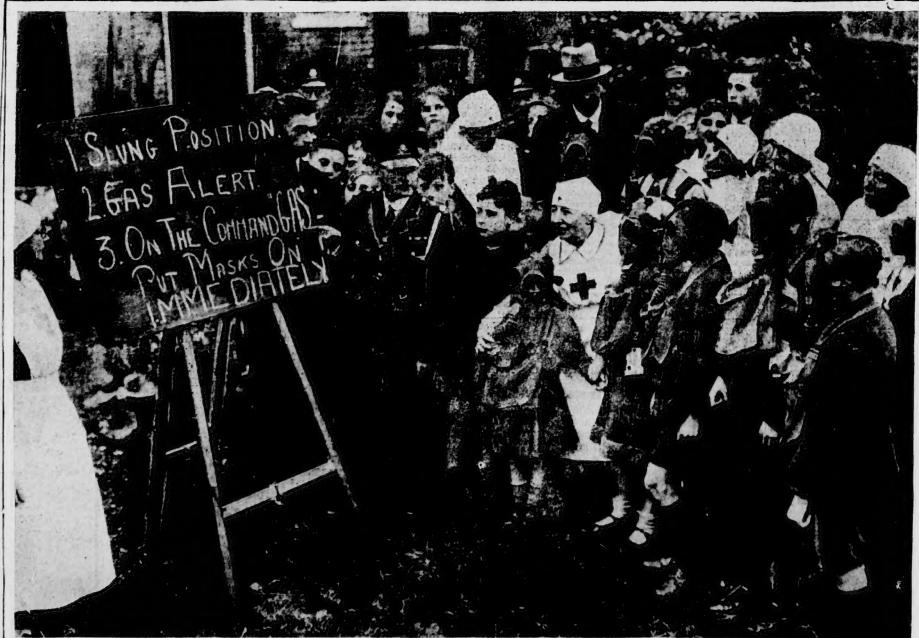

GAS MELODRAMA—The scene is a peaceful English village street. The actors are English school children. Twenty years ago youngsters were being schooled in the art of killing. In this year of peace, 1935, they are being trained in the art of self-preservation. Like the early guides, these children march past their instructor, a member of the St. John Ambulance Brigade, during an inspection demonstration. Thousands of other English children are undergoing similar training, including first aid treatment for wounds and deadly poisons. England is heeding the recent warning of the British Army and Navy Gazette that "in the next war, the whole of the manhood, most of the womanhood, and part of the childhood of the nation will be involved."

REGARDLESS OF COST—Britain must be made safe for mothers and children. Real estate agents have a new talking point if their apartments contain bomb-proof and gas-proof cellars. This one being built at Ashford, Middlesex, is reinforced with armor plate and concrete. Several hundred people can find safety here.

COMPLETE PROTECTION?—Here is the most ingenious piece of clothing yet devised. It is more than a gas mask. The asbestos-like cloth is guaranteed protection against fire and flame and death-dealing corrodes. An oxygen tank is carried underneath, on the wearer's back. The manufacturers point to the "freedom of movement" that the light, durable material affords the wearer.

ON THE COMMAND "GAS"—Another group of English school children is instructed to "put masks on immediately". Volunteer Red Cross nurses, aided by men with war experience, stage these anti-gas demonstrations regularly in the schools. Some of the children scarcely understand the significance of the lessons. The gas masks are heavy and the drill is long and tedious. The youngsters must always be on the alert for the various signals. The little mite in the centre of the group has not been paying attention. Her sister is holding her hand, to give her added confidence that the mask will not harm her. Whither are we going?
